Watermill Master Association, Inc.
414 Old Hard Road
Orange Park, FL 32003

Subject: Permit Number: 4-031-17232-37
Project Name: Chimney Lakes, Parcels 31, 33 & 34
Original Permit Issued: May 9, 2000 (Permitted as 4-031-0165EM2; GRS #17232-13)

The surface water management system serving the above referenced project has been constructed and is functioning in conformance with the requirements of the St. Johns River Water Management District.

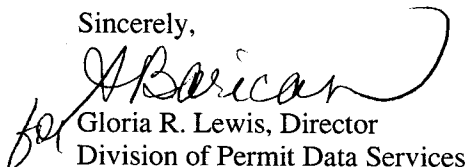

The Watermill Master Association, Inc. is now authorized to operate the system and is responsible for its routine maintenance. Enclosed you will find an operation permit, plan, maintenance guidelines, and a pamphlet entitled "Neighborhood Guide to Stormwater Systems".

The permit, plan and maintenance guidelines provide information to assist you in assuring the system is properly maintained and will continue to function as designed. Please review this material carefully to assure that your association meets all of the requirements contained in your permit and keep it with other important documents. The pamphlet contains general information about the stormwater systems that will be useful to the homeowners in your development.

For additional support, an education program has been developed to provide neighborhood groups with information about proper landscape and pond maintenance practices that will save them money and help ensure protection of Florida's natural waterways. This watershed and ponds education program is available through the District's Watershed Action Volunteer (WAV) program. For more information, contact your local WAV coordinator at (386)312-2346. As an introduction to the education program, videos on watersheds and stormwater systems can be ordered from the District, (800)725-5922.

Your participation is vital to the protection of our rivers, streams, lakes, and wetlands. If you have any questions, please call your local District Service Center, the staff will be happy to respond.

Sincerely,

Gloria R. Lewis, Director
